Q2

The image shows a Visual Studio Code editor window with a dark theme. The Explorer sidebar on the left shows the project structure with files like `atias.jpeg`, `images.jpeg`, and `imgres.htm`. The main editor area displays the content of `ATIAF.HTML`, which is an HTML document for a user registration form. The code includes a head section with meta tags for charset and viewport, a title "User Registration Form", and a body section with a heading, a paragraph, and a form. The form contains fields for username, password, gender (radio buttons), a dropdown menu for "How did you hear about us?", a checkbox for a mailing list, and a "Register now" button.

```
3 <head>
4   <meta charset="UTF-8">
5   <meta name="viewport" content="width=device-width, initial-scale=1.0">
6   <title>User Registration Form</title>
7 </head>
8 <body>
9
10  <h1>User Registration</h1>
11  <p>Please complete the following form to register with our site:</p>
12
13  <form action="#" method="post">
14
15    <label for="username">User Name:</label>
16    <input type="text" id="username" name="username" required><br>
17
18    <label for="password">Password:</label>
19    <input type="password" id="password" name="password" required><br>
20
21    <label>Gender:</label><br>
22    <input type="radio" id="male" name="gender" value="male">
23    <label for="male">Male</label><br>
24    <input type="radio" id="female" name="gender" value="female">
25    <label for="female">Female</label><br>
26
27    <label for="how-heard">How did you hear about us:</label>
28    <input list="how-heard-options" id="how-heard" name="how_heard" required>
29    <datalist id="how-heard-options">
30      <option value="Select answer">
31      <!-- Add more options as needed -->
32    </datalist><br>
33
34    <label>
35      <input type="checkbox" name="mailing_list"> Please select this box if you wish to be added to our mailing list.
36      We will not pass on your details to any third party.
37    </label><br>
38
39    <input type="submit" value="Register now">
```

The browser window on the right shows the rendered HTML document. It has a title bar "User Registration Form" and a address bar "E:/ATIAF/ATIAF.HTML". The content matches the HTML code: a heading "User Registration", a paragraph "Please complete the following form to register with our site:", and a form with fields for "User Name:", "Password:", "Gender:" (with radio buttons for "Male" and "Female"), a dropdown menu for "How did you hear about us:", a checkbox for "Please select this box if you wish to be added to our mailing list. We will not pass on your details to any third party.", and a "Register now" button.
